

# Notes on Selected 2021 Classes

## American Sports Cars (ASC)

Our American Sports Cars class is reserved for the following marques and models:

- Chevrolet Corvette
- Cunningham

*Note – ASC Marques Reassigned for 2021 only*

- Ford Thunderbird 1955-57 is a separate class (FO3)
- Shelby Cobra is included in Ford Import (FO4)

## American Muscle Cars (AM)

Our American Muscle Car class is reserved for factory-built, high performance cars manufactured between 1964 and 1973. Some exceptions for the model year are made on a case-by-case basis. The below list are the more common muscle cars, but this is by no means a complete list.

### American Motors

Scrambler, high performance Rebels, high performance and 4-seat Javelins.

### Buick

Grand Sport

### Chevrolet

All SS models and Z/28 Camaros. All COPO models.

### Dodge

Charger R/T, Daytona, Challenger R/T and AAR, Super Bees and Dart GTS. All Hemi models.

### Ford

Fairlane GT, Torino GT and all high-performance, 4-seat Mustangs including Mach 1 & Boss models.

### Mercury

Cyclones and all high-performance Cougars.

### Plymouth

Road Runner, Superbird, GTX, 'Cuda. All Hemi models.

### Oldsmobile

442

### Pontiac

GTO, Formula Firebird and Trans Am

## CCCA Approved Classics

Please refer to

<https://new.classiccarclub.org/approved-classics>

for the definitive list of eligible marques and models.

## **Preservation Class**

The best preservation car or motorcycle is an unrestored and original vehicle which has been properly maintained in good operating condition. It is also a vehicle that is a model year 1987 or older. Vehicles that are seriously deteriorated barn finds or static non-running displays are not normally eligible for preservation judging. Please refer to <http://icjag.org/preservation-judging-guidelines/> for a fuller explanation of selection and judging.

## **Special Displays**

Special Displays, as the name suggests, bring together a select group of vehicles that illustrate an important element in the history and evolution of motor vehicles. We curate these classes, which are by invitation only. Please contact [registration@hillsboroughconcours.org](mailto:registration@hillsboroughconcours.org) if you wish to have your vehicle considered. To broaden the scope of these displays, by default the vehicles are not judged. These are the Special Displays for 2020:

### **SD2 Ford v Ferrari**

Ford's attempt to improve its image by having a successful racing program led to the development and campaigning of the legendary GT40. The bitter and personal rivalry between Ford and Ferrari, which focused on winning the 24 Hours of Le Mans, became well known to the public as a result the recent movie, Ford versus Ferrari. This display will include relevant cars related to these marques.

### **SD3 Super Cars**

Supercars are high-performance street-legal sports cars. This by-invitation display will showcase a select group of the most exciting examples of recent vintage.

### **SD4 Ragtime Racers**

Automobile racing began the moment the second car was completed. The Ragtime Racers are a collection of mainly pre-war (that's World War I) racecars that bring back the thrill of the early days of auto racing.

### **SD5 Ford Thunderbird Evolution**

Celebrating all things Ford in 2021, this by-invitation display will showcase the evolution of the Thunderbird from its inception to today.
